

MINOR IN FORESTRY

Forest and Rangeland Stewardship Department

Forestry Building, Office 123

970.491.6911

The minor in Forestry provides students with the opportunity to obtain exposure to forest sciences. It provides insight into the management of forested lands and is particularly appropriate for students majoring in other natural resource disciplines or natural sciences.

To get more information about this minor or to officially declare it, please visit the Warner College of Natural Resources Undergraduate Student Advising website (<https://warnercnr.colostate.edu/advising/>) to make an appointment with an advisor.

Learning Objectives

Students will:

1. Effectively communicate knowledge of forestry and natural resources, both verbally and in writing.
2. Demonstrate comprehensive knowledge of subject areas relevant to fields of study in forest sciences, including forest ecology and forest management, and apply this knowledge in a complex, problem-solving environment.
3. Demonstrate and measure fundamental knowledge of ecosystem components and ecosystem functioning, including human systems.
4. Identify and evaluate management objectives.
5. Demonstrate skills in management planning, practice, and implementation.

Requirements

Effective Fall 2024

Students must satisfactorily complete the total credits required for the minor. Minors and interdisciplinary minors require 12 or more upper-division (300- to 400-level) credits.

Additional coursework may be required due to prerequisites.

Code	Title	Credits
F 311	Forest Ecology	3
F 321	Forest and Natural Resource Biometry	3
F 325	Silviculture	3
F 330	Forest Planning and Wood Harvesting Systems	2
F 335	Applications of Silviculture	1
F 421	Ecological Forest Management	3
NR 319	Introduction to Geospatial Science	4
RS 313/F 313	Dendrology and Herbaceous Plant ID	3
Select one course from the following:		3-4
BSPM 365	Integrated Tree Health Management	
F 326	Wildland Fire Behavior and Management	

Program Total Credits: 25-26
